| The MAILING DATE of this communication app | | | | | | | |
| Period for Reply | | | | | | | |
| A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). | | | | | | | |

DETAILED ACTION

The RCE filed 03/04/05 is acknowledged.

Claim Objections

1. Claims 5 and 16 are objected to because of the following informalities:

Claims 5 and 16, "an offset finger latch" should be changed to -- the offset finger latch --.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 3. Claims 1-17 rejected under 35 U.S.C. 102(e) as being anticipated by Duran (6,688,780).

Regarding claims 1, 5, 9 and 16, Duran, figures 2b and 3b, discloses a fiber optic adaptor (220) comprising:

- a central housing (220) formed of a unitary piece of metal (column 5, lines 45-
 - 49). The central housing including a first and second latch portions (202 and

Application/Control Number: 10/722,829

Art Unit: 2839

204, respectively) having first and second latch portion side walls, respectively, an internal wall (228) positioned between the first and second latch portions, a first and a second latch cavities (222 and 224, respectively), and an aperture (229) provided through the internal wall;

- a first latch (262) for mating with the first latch cavity which having a first fiber
 passageway and each side wall including a cantilevered latch arm (264)
 which mate with the first latch portion; and
- a second latch (262') including a second fiber passageway, each side wall
 including a cantilevered latch arm (264') that including an offset finger latch.

Regarding claims 2 and 13, apertures (23) provided through each the side wall of the first and second latch portions, a tooth (266) and another tooth (266') extending outwardly from each the side wall of the first and second latch for engagement with the apertures.

Regarding claims 3 and 14, the first and second latch portions each including two V-shaped rails.

Regarding claims 4 and 15, the first and second latch portions each including a U-shaped guiding structure.

Regarding claims 6 and 10, a flange (266) extending outwardly from the central housing.

Regarding claims 7 and 17, the aperture through the internal wall is generally rectangular shaped.

Regarding claims 8 and 11, the internal wall is aligned and angled relative with

Art Unit: 2839

the flange.

Regarding claim 12, the first and second fiber passageways are angled relative to the flange.

Response to Arguments

4. Applicant's arguments filed 03/04/05 have been fully considered but they are not persuasive.

Duran, figure 3b, discloses a second cantilevered latch arm (264') including an offset finger latch.

Conclusion

- 5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thanh-Tam T. Le whose telephone number is 571-272-2094. The examiner can normally be reached on 7:30-5:00.
- 6. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, TC Patel can be reached on 571-272-2098. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
